Claim for Exemption from Goods Vehicle Testing Requirements and Vehicles outside the scope of the 1988 regulations, but having an allocated Plate

Declaration  Please read the appropriate notes below and overleaf before completing this form.

I claim that the vehicle Registration Mark for which I have applied for a vehicle licence disc to commence on is exempt from the provision of section 53(2) of the Road Traffic Act 1988 under the Goods Vehicle (Plating and Testing) Regulations 1988. The vehicle falls into one of the following four categories:-

• it is exempt under Regulation 44(1)(e) because it is used used on the public road by an Order made under section 44 of the Road Traffic Act 1988 *

• it is used on certain off-shore islands or other specified areas which are exempted by Regulation 44(2)*

• it is a vehicle of a class listed in Schedule 2 (see overleaf) which exempts it from the testing requirement

• it is outside the scope of Schedule 2, i.e. being a heavy/light locomotive or motor tractor within the meaning of the Road Traffic Act 1988, but has an allocated revenue weight.

Test Certificates

Notes

1. A current test certificate or certificate of temporary exemption must be produced with an application for a heavy goods vehicle if the vehicle is one to which section 53(2) of the Road Traffic Act 1988 applies by virtue of the Goods Vehicles (Plating and Testing) Regulations 1988. In cases of doubt, the Regulations should be consulted, but their general effect is that goods vehicles over 3500kgs gross weight (revenue weight for Vehicle Excise Duty (VED) purposes) are subject to testing.

2. Classes of vehicle to which Section 53(2) does not apply are specified in the Schedule to the Regulations (see overleaf).

   If you consider your vehicle meets one of these descriptions, you must complete the declaration on the relicensing application (V10/V11) and submit one of these forms for exemption on each occasion that a licence is applied for.

3. Some vehicles which would normally require to have test certificates may be specially exempted if used on a road for a purpose set out in Regulation 44(1) or within the limits set out in Regulation 44(2) of the Goods Vehicles (Plating and Testing) Regulations 1988.

Regulation 44(2) reads as follows:

“"The provisions of section 53(1) and (2) of the 1988 Act shall not apply to the use of a vehicle in so far as such use occurs in any place (excluding the Isle of Wight, the islands of Lewis, Mainland (Orkney), Mainland (Shetland) and Skye) being an island or to any area mainly surrounded by water, being an island or area from which motor vehicles not constructed for special purposes can at no time be conveniently driven to a road in any other part of Great Britain by reason of the absence of any bridge, tunnel, ford or other way suitable for the passage of such motor vehicles”.

In either of these circumstances a claim for exemption and a Declaration must be made before a vehicle licence disc can be issued.
